New Edition of ULI's Best-Selling Publication!

Urban Land Institute

Real Estate Development: Principles and Process **Fifth Edition**

Mike E. Miles, Laurence M. Netherton, Adrienne Schmitz

Since the first edition was published in 1991, *Real Estate Development: Principles and Process* has been one of ULI's most widely-distributed publications, and this new edition provides the foundation for understanding real estate development in the 21st century. Based on an eight-stage model, this book explains the nuts and bolts of real estate development—everything from idea inception, feasibility, finance, contracts, and construction through marketing and asset management. With case studies and real world examples, this is an excellent text for both professionals and students in the fields of real estate development, urban planning, architecture, and finance.
